2026 Camp Introduction

Mission

Our summer camp mission is to enrich and extend learning through high-quality, engaging programs that reflect Brighton's core values. We aim to inspire curiosity, nurture the whole child, and uphold our commitment to educational excellence.

Highest Standards In Every Program

Each week, campers engage in focused learning blocks—regardless of the camp theme—to spark curiosity, support whole-child development, and reinforce our strong commitment to educational excellence. Led by skilled educators, our camps reflect Brighton's highest standards, offering safe, dynamic, and enriching experiences aligned with our five key learning standards: Discover, Play, Create, Wonder, and Learn.

Campers explore the exciting world of science, technology, engineering, art, and math (STEAM) through building projects, experiments, and design challenges. Sharing ideas, asking questions, and making predictions are encouraged!

Robust outdoor play and structured games help campers learn sportsmanship and develop their physical strength and endurance. Campers learn critical thinking and problem solving by participating in board games and team challenges with their peers.

Campers express themselves by participating in hands-on visual arts, including photography, videography, drawing, and painting. Campers develop planning skills by working on project-based activities with their peers and will participate in group performances or discussions, discussions, debates, and other public speaking opportunities.

Social and emotional growth is nurtured through camper- and teacher-led activities that promote a feeling of community and belonging. Campers learn through open-ended activities that give them a chance to apply problem-solving skills and collaborate with friends.

From imaginative games that stimulate cognitive development to hands-on experiences, campers will engage in activities that enhance motor skills. These activities not only set the stage for academic success, but also foster social, emotional, and physical growth.
